

State, Local, and Community Winter Storm Resources

Quick Prep Checklist

Personal:

- Water: 1 gallon per person per day (more if breastfeeding, sick, or for pets).
- Food: Ready-to-eat items (manual can opener), baby formula as needed.
- Medications: 7-day supply, copies of prescriptions, medical devices/chargers.
- Warmth: Layers, hats/gloves, blankets/sleeping bags, hand/foot warmers.
- Light/power: Flashlights (not candles), extra batteries, power banks, car charger.
- Safety: First-aid kit, whistle, multi-tool, duct tape, matches/lighter.
- Sanitation: Wipes, trash bags, toilet supplies.
- Documents and cash: IDs, insurance, important papers in a waterproof bag; small bills.

Pipes and water:

- Prevent freezing: Drip hot and cold faucets, open sink cabinets to warm pipes, insulate exposed pipes, keep thermostat consistent (55°F+ even if away).
- If a pipe bursts: Shut off main water valve, avoid standing water near outlets, call a plumber/landlord, document damage.

Home and Heat Safety:

- Prevent fires/CO: Never use ovens/grills for heat. Use space heaters 3+ feet from anything that can burn; plug directly into wall; turn off when unattended. Test smoke and CO alarms.
- Generator safety: Run outdoors, 20+ feet from doors/windows/vents; point exhaust away; never in garage or porch.
- Keep heat in: Close off unused rooms, hang blankets over windows/doors, use draft stoppers, wear layers.
- If you lose heat: Consider warming centers; bring meds/chargers/IDs if you have them (most do not require ID).

State, Local, and Community Winter Storm Resources

Power Outage and Device Tips:

- Conserve battery: Low-power mode, dim screen, disable background apps; text instead of call.
- Fridge/freezer: Keep closed food; stays safe ~4 hours in fridge, 48 hours in a full freezer. Discard perishable items above 40°F for 2+ hours. Use a thermometer if possible.
- Unplug sensitive electronics to avoid surge damage; leave one light on to know when power returns.

Travel and vehicle safety:

- Avoid driving on ice if possible. Bridges/overpasses freeze first; black ice is hard to see.
- If you must drive: Go slow, increase following distance, keep gas tank at least half full.
- Car kit: Blanket, hat/gloves, water/snacks, scraper, shovel, sand/kitty litter, jumper cables, phone charger, basic first aid, flashlight.
- If stranded: Stay with your vehicle; call 911 clear snow from tailpipe. Run engine 10 minutes per hour for heat, crack a window slightly, and display a bright cloth for visibility.

Health, neighbors, and pets:

- Shoveling snow is strenuous—take breaks; people with heart/lung conditions should avoid heavy exertion.
- Check on elderly/disabled neighbors and anyone who relies on electricity for medical equipment.
- Pets: Bring them indoors; short outings only. Keep extra food/meds and wipe paws to prevent ice melt irritation.

Downed lines and gas concerns:

- Treat all downed wires as live. Stay at least 35 feet away; call your utility or 911.
- If you smell gas (rotten eggs), leave immediately and call the gas company/911 from outside
